CORE COMPETENCIES

- | | | |
|--|---------------------------------------|--|
| ■ Business Analysis & Requirements Engineering | ■ Product Ownership & Roadmapping | ■ OTA Platforms -B2C & B2B (Flight, Hotel, Visa, Tour) |
| ■ Agile / Scrum Leadership | ■ Stakeholder Engagement & Management | ■ Process Modelling (BPMN / UML / Figma) |
| ■ Documentation (PRD · BRD · SRS · FRD · RTM) | ■ Rapid Prototyping & Wireframing | ■ ERP, Accounting & Fintech Systems |
| ■ Payment Gateway Integration Analysis | ■ UAT & Quality Assurance | ■ GDS / Airline Supplier Integration Analysis |
| ■ Data-Driven Decision Making | ■ DevOps Cost & Rework Optimisation | ■ Cross-functional Team Collaboration |

Tools: Jira · Confluence · Notion · Trello · YouTrack · Miro · Postman · Figma · Balsamiq · Tableau · MS Excel · Draw.io · BPMN

KEY ACHIEVEMENTS

- Recognised as Strategic Business Analyst of the Year - US Bangla Group; awarded for consistent product leadership and delivery excellence across OTA, ERP, Fintech & Transport verticals.
- Spearheaded Firsttrip OTA B2C (firsttrip.com) as full Product Owner -Flight, Hotel, Tour, Visa, e-SIM, Add-ons & Ancillaries; successfully integrated Airalo e-SIM, TripAdd service, and multiple GDS / airline suppliers from scratch to production.
- Directed OTA B2B flight module delivery across 4 live platforms -Triplover, TravelChamp, TakeTrip & TakeOffBD -designing end-to-end issue, auto-reissue & auto-refund automation workflows that eliminated manual processing errors.
- Designed and implemented multi-gateway payment ecosystem for Firsttrip -EBL, MTB, Visa, Mastercard & MFS -with full PCI DSS compliance, enabling seamless, secure transactions for thousands of users.
- Formulated and delivered a customised multi-entity SaaS Accounting System -independently executed from requirement analysis to successful implementation -adopted by Firsttrip, Triplover, TakeTrip, TravelChamp, Foodi & Cartup across aviation, food delivery and ride-sharing verticals.
- Designed full prototype and delivered US Bangla Group ERP (ODO) for 10,000+ active users -covering Performance, Employee, Asset, Dashboard & Recruitment modules; benchmarked as feature-superior to PeopleDesk & PIHR.
- Directed and delivered PortYou ride-sharing platform from zero to MVP (portyou.com) -led full requirement analysis, Driver & Admin module design, and core feature delivery, on track for commercial launch.
- Designed full requirement and delivered US Bangla Airlines Transport Management Service from scratch -integrated GPS tracking for real-time fleet monitoring and route optimisation.
- Successfully implemented US Bangla Airlines Fuel Efficiency, Flight Safety & Flight Schedule projects -improving operational reliability and reducing overhead costs.
- Significantly reduced development costs and rework across all projects by proactively owning delivery accountability, collaborating with DevOps on server cost analysis, and applying multitasking across concurrent product tracks.

WORK EXPERIENCE

Business Analyst → Product Owner

Jul 2025 – Present

TechnoNext Software Limited -US Bangla Group

Dhaka, Bangladesh

Achievements:

- Assumed full Product Owner accountability for Firsttrip B2C OTA (firsttrip.com) -Flight, Hotel, Tour, Visa, e-SIM, Add-ons & Ancillaries; successfully integrated Airalo e-SIM and TripAdd service end-to-end.
- Designed and implemented multi-gateway payment integration -EBL, MTB, Visa, Mastercard & MFS -with PCI DSS compliance, delivering a secure and seamless checkout experience.
- Spearheaded latest issue, auto-reissue & auto-refund process automation -designed full process flow through to production implementation, significantly reducing manual intervention.
- Integrated Branded Fare and partner perks (Robi Elite, GP Star, Skitto, Banglalink) -conducted full API analysis and delivered end-to-end implementation.
- Onboarded latest airline suppliers and GDS integrations, expanding inventory coverage and booking capability on the Firsttrip platform.
- Formulated Seat Selection, Extra Baggage & Meal Selection workflows for both pre-booking and post-ticketing flows on Firsttrip B2C.
- Designed and delivered US Bangla Group ERP (ODO) for 10,000+ active users -Performance, Employee, Asset, Dashboard & Recruitment modules -adopted across all sister concerns.
- Oversaw US Bangla Airlines website redesign (uat.usbair.com) -introduced Frequent Flyer feature, auto-refund, auto-reissue and latest process flows for improved customer self-service.
- Advancing Zenith PSS (Passenger Service System) -Sales & Inventory module; completed rapid prototyping through to balanced prototype stage, pending stakeholder vetting before development.
- Maintained full Agile / Scrum discipline across all tracks -BRD, Wireframing, BPMN (Figma), SRS, User Stories and complete lifecycle documentation for every feature.

Duties & Responsibilities:

- Working as lead business analyst and Own product vision, backlog prioritisation and roadmap alignment with business strategy across 5+ concurrent product tracks.
- Conduct requirement elicitation via workshops, interviews & stakeholder collaboration; produce User Stories, SRS, FRS & RTM.
- Design high-fidelity wireframes and interactive prototypes in Figma / React / HTML; model processes via BPMN & UML.
- Facilitate Scrum ceremonies -sprint planning, backlog grooming, sprint review & retrospectives.
- Coordinate UAT cycles, stakeholder training sessions, and post-go-live support and defect resolution.
- Collaborate with DevOps to analyse server and development costs; proactively minimise rework through robust requirement ownership.

Jr. Business Analyst

Dec 2023 – Jun 2025

TechnoNext Software Limited -US Bangla Group

Dhaka, Bangladesh

Achievements:

- Independently formulated and delivered a customised SaaS Accounting System for Firsttrip, Triplover, TakeTrip, TravelChamp, Foodi & Cartup -executed full cycle from requirement analysis to successful implementation.
- Designed and delivered OTA B2B flight modules for Triplover, TravelChamp, TakeTrip & TakeOffBD from scratch -covering issue, reissue, refund and ancillary service workflows.
- Progressed OTA B2C platform (Firsttrip) -Flight, Hotel, Tour & Visa -supporting product analysis, documentation and delivery across multiple feature iterations.
- Designed Foodi App Map Solution and Heatmap analytics service -enabling data-driven delivery zone optimisation and improved driver dispatch efficiency.
- Directed PortYou ride-sharing MVP (portyou.com) from zero -requirement analysis, Driver Module, Admin Module & core feature delivery through to production-ready stage.
- Designed US Bangla Airlines Transport Management Service from scratch -integrated real-time GPS tracking for fleet monitoring and route management.
- Successfully implemented US Bangla Airlines Fuel Efficiency, Flight Safety & Flight Schedule projects -delivered all three from requirement definition to live operation.

- Designed and automated US Bangla Airlines reconciliation process -reduced manual reconciliation effort and improved financial accuracy.
- Formulated Seller Module and Accounting features for Cartup ride-sharing platform.

Duties & Responsibilities:

- Elicit requirements via stakeholder interviews, workshops & document review; author BRD, SRS, FRD, User Stories & RTM.
- Design wireframes, interactive prototypes (Figma / React) and BPMN process models for stakeholder validation.
- Maintain and prioritise product backlogs; collaborate with development teams to ensure clear requirement implementation.
- Conduct UAT, provide end-user training, and deliver post-implementation support.

Technical Business Analyst

Sep 2022 – Nov 2023

Developer eXperience Hub

Dhaka, Bangladesh

Achievements:

- Designed and delivered Sharp Archive (sharparchive.com) -a cross-platform social media data archiving system capable of capturing and storing content from multiple digital platforms.
- Formulated structured documentation (BRS, SRS, FRD) that materially reduced requirement ambiguity and development rework on ERP projects serving 10,000+ users.

Duties & Responsibilities:

- Conduct stakeholder requirement sessions; develop business cases and process-improvement recommendations.
- Facilitate alignment between business stakeholders and development teams throughout the project lifecycle.
- Participate in UAT planning and execution; provide post-deployment support and continuous improvement.

Instructor -E-commerce Professional

Oct 2023 – Dec 2023

Her Power Project

Dhaka, Bangladesh

Achievements:

- Facilitated comprehensive training for 70+ students on WordPress, WooCommerce, Shopify & sandbox payment integration.

Intern -ICT Division

Jun 2022 – Aug 2022

Walton Digi-Tech Industries Limited

Dhaka, Bangladesh

Duties & Responsibilities:

- Administered MDM via VMware Workspace ONE for Population & Housing Census 2022 (BBS); enrolled, configured & troubleshooted hundreds of Android devices.
- Identified and documented defects in the census ticketing application; delivered client-facing technical support.

NOTABLE PROJECTS

-
- ▶ **Firsttrip -OTA B2C Platform** - Full product ownership -Flight, Hotel, Tour, Visa, e-SIM, Ancillaries & Payment Gateway
 - ▶ **TakeOffBD -OTA B2B** - B2B flight platform -issue, reissue, refund & ancillary services
 - ▶ **TakeTrip -OTA B2B** - B2B OTA flight module -add-on services & supplier integration
 - ▶ **Foodi -Food Delivery Platform** - Map solution, Heatmap analytics & Accounting system implementation
 - ▶ **PortYou -Ride-sharing MVP** - Full lifecycle -requirement analysis, Driver & Admin modules through to MVP
 - ▶ **US Bangla Airlines Website** - Website redesign -Frequent Flyer, auto-refund, auto-reissue & modern UX
 - ▶ **Sharp Archive** - Cross-platform social media data archiving system -multi-source digital content capture
 - ▶ **Cartup -Seller & Accounting Module** - Seller module & customised accounting system for ride-sharing platform
 - ▶ **US Bangla Group ERP (ODO)** - 10,000+ active users -Performance, Employee, Asset, Dashboard & Recruitment modules
 - ▶ **US Bangla SaaS Accounting System** - Multi-entity accounting -Firsttrip, Triplover, TakeTrip, TravelChamp, Foodi, Carrybee
 - ▶ **Transport Management Service -US Bangla Airlines** - GPS-integrated fleet tracking & route management system -designed from scratch
 - ▶ **Flight Operations Suite -US Bangla Airlines** - Fuel Efficiency, Flight Safety & Flight Schedule -requirement to live implementation
 - ▶ **Zenith PSS -US Bangla Airlines** - Passenger Service System -Sales & Inventory module (rapid prototyping stage)

- ▶ **HajiTalk -Pilgrim Guide App** - Multilingual (Bangla/English/Arabic) -Qibla compass, Hajj & Umrah rituals (Google Play)
- ▶ **The Quiet Grid -Sudoku App** - Android Sudoku game -unique Editorial Mode UI (Google Play)
- ▶ **EziCard -Business Card Maker** - Digital business card creation app (Google Play)
- ▶ **In-house PMS Tool** - Agile / Kanban lifecycle management -Jira & YouTrack equivalent

EDUCATIONAL QUALIFICATIONS

Bachelor of Science -Computer Science & Engineering Bangladesh Army University of Science & Technology (BAUST), Saidpur	2018 – 2022 CGPA: 3.09 / 4.00
Higher Secondary Certificate (HSC) -Science BAF Shaheen College Shamsheernagar	2016 CGPA: 4.92 / 5.00
